HARMONICALLY RICH PICKS

Trusted TUSQ Tone Now in a Pick!

For almost 30 years our patented TUSQ technology has brought out the best harmonics, vibration transfer and tone in guitars and stringed instruments worldwide. Now we've engineered our TUSQ technology to create the ultimate tone and performance pick.

TUSQ picks have a high stiffness to thickness ratio found on real tortoise shell but with a harmonic content only TUSQ can deliver. TUSQ ultra-responsive feel will enhance the unique and subtle nuances of your playing; whatever your picking style.

FEATURES & BENEFITS

- > Created with legendary TUSQ material
- > Strong, durable & made-to-last
- > High stiffness to thickness ratio
- > Ultra responsive feel
- > Enhanced harmonics
