

String
SAVER™
Play with confidence

Unlock the **potential** of your guitar.

High Performance Saddles Dramatically Reduce String Breakage

"I've been using Graph Tech's String Saver Saddles for at least 10 years and I've noticed a significant decrease in string breakage. As a matter of fact, I'm such a fan of the product that I will be using them on my Fender Signature Series Stratocaster - that's a good testament to the quality of the product".

*-Kenny Wayne Shepherd
Reprise Recording Artist*

String Saver™ Classics will preserve the classic original sound and cosmetics of your guitar while freeing you from the problem of breaking strings. Imagine how you could play if you didn't have to worry about breaking strings!

- Reduces string breakage
